ARCI' 2024 Conference's Call for Papers>

Title of Contribution to ARCI' 2024 Conference

N. Firstauthor¹, S. N. Secondcoauthor¹ and N. S. Thirdcoauthor²

¹ University of World, UFO Laboratory, 11 Research Av., 1234 Cityname, Mycountry

² Mycompany, Ltd., 123 Business Park, 54321, Townname, Mycountry

Tel.: + 12345678, e-mail: name.surname@domain.com

Summary: The summary should be concise and short, approximately 150 words. The instructions you are reading now are meant to guide you in preparing a two-page extended abstract for the ARCI' 2024 conference, which will be held 7-9 February 2024 in Innsbruck, Austria. The extended abstract submission is still open. Authors of accepted papers will be notified in two weeks after submission. All accepted extended abstract or full-page papers (max. 4-6 page) will be published in conference proceedings available on a flash drive and distributed during the conference. Authors, who has presented papers during the conference will be invited to submit full-page articles for the special issue of *Sensors & Transducers* journal (ISSN: 2306-8515, e-ISSN 1726-5479) or other related indexed, high impact journals.

Keywords: Leave one blank line after the Abstract and write your Keywords or/and Keyphrases (5-7 words or/and phrases, separated by comma).

1. Introduction

This template provides authors with most of the formatting specifications needed for preparing their two-page extended abstract.

The authors should submit two-page double-column, single line spacing pages of camera-ready extended abstract (in English only).

1.1. Page Setup: Margins and Layout

Use A4 (210 x 297 mm) sized paper of the article. Column width must be 7.61 cm, spacing between columns must be 0.6 cm. In the Page Setup menu please select 'Mirror Margins' option in the 'Margins' submenu, Use 0.89 cm for Header and 1.27 cm for Footer. Leave 1.9 cm margins at the top and inside, and 2.54 cm at the bottom and outside. Gutter: 0.63 cm. Please do not re-adjust these margins.

1.2 Fonts, Size and Style

The text should be typed double-spaced and justified. Use Times New Roman typeface throughout the article. Center the title (14 points, bold); author(s) name(s) (11 points, bold); affiliation(s), address(es), phone number and fax numbers (with country and city codes), and e-mail address (9 points, regular). Leave one blank lines above the title and affiliations.

Then put short abstract of the article (approximately 150 words, 9 points). For word **Abstract** use Bold. After the abstract insert one blank line.

Below insert a list of up to 5 keywords/ keyphrases. For the word **Keywords** use Bold.

Type the text of the article (10 points, regular) in two columns.

Use 0.5 cm indent in first line of each paragraph. Do not use the blank line between paragraphs. Headings must be numbered. (11 points, bold) and precede each of them with one blank line. Do not use Roman numbers. Use 10 point, bold for subheads.

Place a full list of references at the end of the article. Please place the references according to their order of appearance in the text. Enclose the numbers in square brackets. Use 9 points, regular for the reference list. A reference must include a full title of article, paper or book, and journal title and conference proceedings for articles and papers. Please use the full titles for journals.

Paragraph format: spacing before 0 pt, after 0 pt, line spacing: single.

1.3 Abbreviations and Acronyms

Define abbreviations and acronyms the first time they are used in the text, even after they have been defined in the abstract. Abbreviations such as IEEE, IFSA, ac, dc, ms, etc. do not have to be defined. Do not use abbreviations in the title or heads unless they are unavoidable.

2. Equations

2.1. This is a Subtitle Example

Equations should be prepared in Equation Editor and placed in separate lines, numbered and centered. Please use separate table's cells to place an equation and its number. Do not use any equations inside of paragraph. The numbers should be within brackets and

right aligned. Leave one blank line above and below each equation. For example, the line equation:

$$y = a * x + b, \quad (1)$$

where a is the coefficient, x is the argument and b is the bias.

3. Figures and Tables

The figures and tables must be numbered, have a self-contained caption and centered. **Please note, all figures and tables must be referred in the text before the first appearance.** Figure captions should be below the figures; table captions should be above the tables. Please avoid placing figures and tables before their first mention in the text.

The text of figure captions should be 9 points high, Times New Roman. For the words “Fig.” and “Table” use Bold. For example: **Fig. 7, Table 5.** Leave two blank line before and one after text of figure and table captions.

Fig. 1. Example of figure. (maximal possible width for single-column figures is 7.6 cm).

Table captions should be centered or right aligned and figure captions should be centered. Leave two blank line before the caption of the table. Do not indent the captions. Do not use characters smaller than 8 point in figures.

All the figures, graphs and photographs should be numbered and referred in the main text. Abscissas and ordinates of all graphs should be labeled with symbols and units. All figures, graphs and photographs can be in colors as well as in black and white (or gray shades) with good resolution. Big size figures and tables can have the double-column width (see Fig. 2 as an example).

The table example is shown below.

Table 1. Title must be here.

No.	U_m (V)	I_s (mA)	k_z
1.	0.37	25	8.956
2.	1.9	32	4.67

Please check the numbering sequence of figures, tables, sections, formulas, etc. before submitting the paper.

4. Conclusions

We thank you in advance for the usage carefully of instructions for camera-ready articles, which can be sent for publication with minor modification.

Acknowledgements

Use the Acknowledgements section if it is necessary.

References

Please use Article title and full title for Journals. Do not use abbreviations !
